*I should welcome almost any war, for I think this country needs one. – President Theodore Roosevelt*

*The American public and the world have long since been warned of the dangers of allowing [the military industrial complex](#) to become such an integral part of our economic survival. The United States is the self-proclaimed angel of democracy in the world, but just as [George Orwell](#) warned, "war is the health of the state," and in the language of newspeak, democracy is the term we use to hide the reality of the nature of our warfare state.*

In truth, the United States of America has been engaged in some kind of war during 218 out of the nation's total 239 years of existence. Put another way, in the entire span of US history, this country has only experienced 21 years without conflict. For a sense of perspective on this sobering statistic, consider these [4 facts about the history of US involvement in military conflict](#) :

- Pick any year since 1776 and there is about a 91% chance that America was involved in some war during that calendar year.
- No U.S. president truly qualifies as a peacetime president. Instead, all U.S. presidents can technically be considered "war presidents."
- The U.S. has never gone a decade without war.
- The *only* time the U.S. went five years without war (1935-40) was during the isolationist period of the Great Depression.

As the world moves closer and closer to an official beginning to world war III, and as many people are seeking opportunities to de-escalate the situation in the Middle East, it is important to realize that the US state and the American people are simply not equipped or conditioned to pursue and realize peace. War is indeed the health of our state.

## Calendar Years the U.S. Has Been At War Since 1776

Here is a year-by-year timeline of America's involvement in military conflict, as compiled by Danios of [Loonwatch.com](http://Loonwatch.com) . It is noted that this list is not exhaustive, but rather a compilation of events that fit the definition of 'war,' excluding acts of genocide and ethnic cleansing such as were carried out against Native American populations during the establishment of the empire, and also excluding foreign interventions by America's covert security agencies such as the CIA:
