

The United States Air Force and CIA assassinate targets in residential areas, at FUNERALS and WEDDINGS and routinely murder children, mothers and entire families. They do this in countries we have no declaration of war with or a recognized combat zone.

This video was made at Creech Air Force base where pilots have commanded drones that have executed many children.

At the annual SHUT DOWN CREECH protest (2016), the EEK TEAM (environmentally evolved Kids) performed what may be the pinnacle of "Die-Ins", the execution of a funeral procession. The number of funerals targeted by Creech fliers is unknown, similar to the actual number of weddings and other social and Spiritual events (yes...EVEN Mosques!).

This procession was the first of multiple actions on April 1st at three different gates of Creech Air Force Base. Twenty seven people total were arrested during the day. The children were not arrested but the adult Angels that followed the procession were arrested and released later that evening.

The number of children murdered by US drones is in the high hundreds at least and maybe over one thousand. YOU, the TAXPAYER, PAY FOR IT.

HELP US SHUT DOWN CREECH!
